

Exercise 1:

Create a form design that will display the odd or even number

The image displays two side-by-side screenshots of a Windows application window titled 'Form1'. The left screenshot shows the form with the text 'Enter a Number:' followed by a text box containing the number '15'. Below the text box is a button labeled 'CHECK'. Underneath the button, the text 'Result: ODD NUMBER' is displayed. The right screenshot shows the same form with the text box containing the number '10'. The 'CHECK' button is still present, and the text below it now reads 'Result: EVEN NUMBER'.

Exercise 2:

Create a form design that will display the negative or positive number

The image displays two side-by-side screenshots of a Windows application window titled 'Form1'. The left screenshot shows the form with the text 'Enter a Number:' followed by a text box containing the number '-10'. Below the text box is a button labeled 'CHECK'. Underneath the button, the text 'Result: NEGATIVE NUMBER' is displayed. The right screenshot shows the same form with the text box containing the number '21'. The 'CHECK' button is still present, and the text below it now reads 'Result: POSITIVE NUMBER'.
